1 File Upload Question

1. Latitude - Event Registration   + 100.0

— Should provide admin login.

— Should provide UI for Admin level operations mentioned below.

On Back End :

— Receive all the event registration details from the Front End and store them in a database.

— Generate Registration Number for the request and store it in database.

— Render different types of requests like for the event registration, data for Admin etc.

[Minimum Requirement] (Level 1)

On Front End :

— Create a form on the UI which captures :

```
            —Fields for Data Capture (All fields are
mandatory)
                              —Full Name
                              —Mobile
                              —E-Mail
                              —Upload ID Card
(Formats: png, jpeg)
                              —Registration type :
Self/Group/Corporate/Others
```
